YOUR DRINKING WATER:**

Effective January 1, 2006 the US Environmental Protection Agency reduced the drinking water standard for Arsenic from 50 parts per billion (ppb) to 10 ppb. This is considered to be at the violation of the federal drinking water standard. Although this is not an emergency, you have a right to know what is happening, what you should do and what your water association is doing to continue to keep in compliance. The Grand View Water & Sewer Association, Inc. is still required to provide quarterly public notice of this excess EPA standard Arsenic level.
